

Aurelia Pendant

How to bezel 20mm Rivoli with Matubo beads

Material (for one pendant):

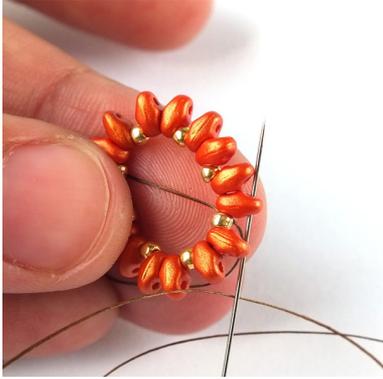

- Matubo Miniduo (approx. 2 grams)
- Matubo 6/0 or 6/0 3-CUT (approx. 2 grams)
- Matubo 8/0 (approx. 1 grams)
- 15/0 Japanese seed beads (approx. 1 gram)
- 11/0 Japanese seed beads (approx. 2 grams)
- 3mm round beads (4 pcs)
- 20mm Matubo Rivoli

Beading needle and thread (Nymo, Fireline)

Difficulty: Intermediate

1) String one 11/0 and two Miniduos. Repeat seven more times (so you have total 8 11/0s and 16 Miniduos).

2) Slide all the beads to the end of the thread and tie a square knot to form a circle. Pass through the upper hole of the nearest Miniduo.

3) In the gap between the two Miniduos add one 8/0 and then pass through the upper hole of the next Miniduo.

4) In the gap above the 11/0 add one 11/0 and pass through the upper hole of the next Miniduo.

5) Repeat steps 3 and 4, until you reach the end of the row. Make the step-up: add one last 11/0, then pass through the upper hole of the last Miniduo and then through the first 8/0 from this row.

6) Add one 8/0 and pass through the next 11/0 in the row.

7) Add one 8/0 and pass through the next 8/0 in the row.

8) Repeat steps 6 and 7, until you reach the end of the row. Make the step-up: add one last 8/0, then pass through the last 8/0 from the previous row and through the first 8/0 from this row.

9) In the gap above the 11/0 add one 8/0 and pass through the next 8/0 in the row.

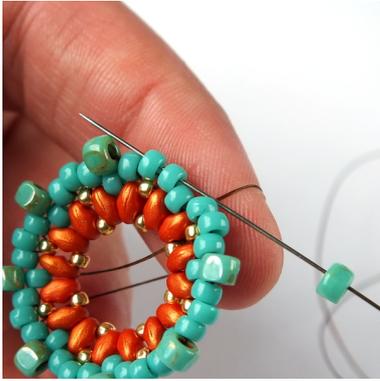

10) In the gap above the 8/0 add one 6/0 and pass through the next 8/0 in the row.

11) Repeat steps 9 and 10
...

16) In the gap above the 6/0 add one 8/0 and pass through the next 8/0 in the row.

12) ...until you reach the end of the row.
Make the step-up: add one last 6/0, then pass through the last 8/0 from the previous row and through the first 8/0 from this row.

17) In the gap above the 8/0 add one 11/0 and pass through the next 8/0 in the row.

13) Add one 8/0 and pass through the next 6/0 in the row.

18) Repeat steps 16 and 17 ...

14) Add one 8/0 and pass through the next 8/0 in the row.

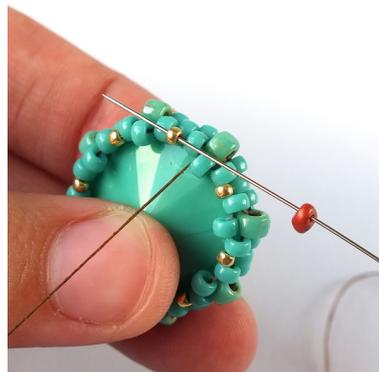

19)...until you reach the end of the row.
Before you finish the row, put the rivoli inside (back side first).
Make the step-up: add one last 11/0, then pass through the last 8/0 from the previous row and through

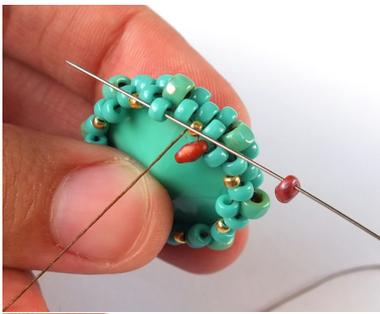

the first 8/0 from this row.

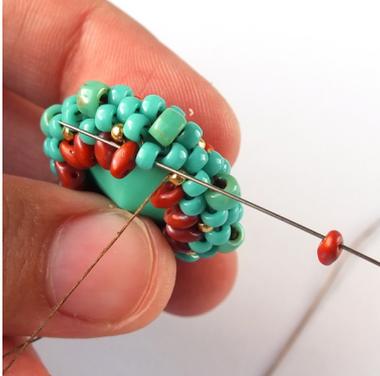

15) Repeat steps 13 and 14, until you reach the end of the row.
Make the step-up: add one last 8/0, then pass through the last 8/0 from the previous row and through the first 8/0 from this row.

20) Add one Miniduo and pass through the next 11/0 in the row.

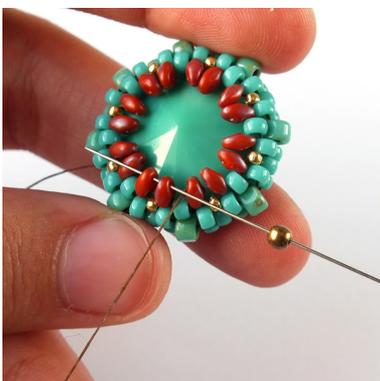

21) Add one Miniduo and pass through the next 8/0 in the row.

22) Repeat steps 20 and 21, until you reach the end of the row. Make the step-up: Add one last Miniduo and then pass through the last 8/0 from the previous row and through the lower hole of the first Miniduo from this row ...

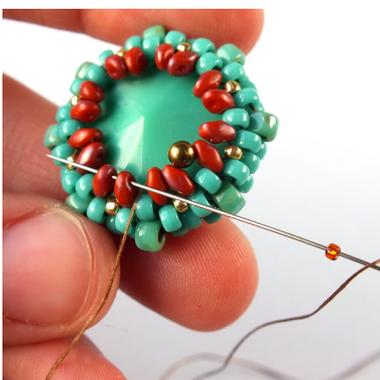

23) ... and then pass back through the upper hole of the same Miniduo.

24) The thread exits from one of the Miniduos, into the gap above the 8/0.

Add one 3mm round and pass through the upper holes of the next two Miniduos.

25) Add one 15/0 and pass through the upper holes of the next two Miniduos. (If you feel that the gaps between beads are too large, you can use a 11/0 instead of a 15/0).

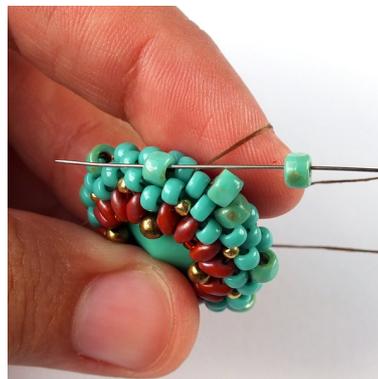

26) Repeat steps 24 and 25, until you reach the end of the row.

27) Weave through beads to get to one of the 6/0s .

28) Add one 6/0 and pass through the next 8/0 in the row.

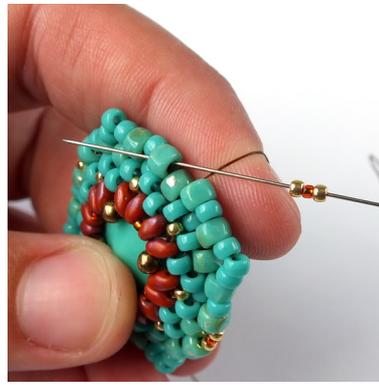

29) Add one 6/0 and pass through the next 6/0 in the row.

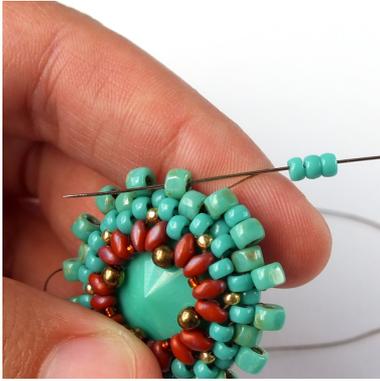

30) Repeat steps 28 and 29, until you reach the end of the row. Make the step-up: Add one last 6/0 and then pass through the last 6/0 from the previous row and through the first 6/0 from this row.

31) In the gap above the 11/0 add one 8/0 and pass through the next 6/0 in the row.

36) ... until you reach the end of the row.

32) In the gap above the 3mm round add three 8/0s and pass through the next 6/0 in the row.

37) In the gap above the "new" 8/0 add one 11/0 and pass through the next 6/0 in the row.

33) In the gap above the 11/0 add one 8/0 and pass through the next 6/0 in the row.

38) Pass through the first 8/0 in the corner.

34) In the gap above the 15/0 add one 11/0, one 15/0 and one 11/0 and pass through the next 6/0 in the row.

39) Skip the middle 8/0 in the corner, then pass through the third 8/0 in the corner and through the next 6/0 in the row.

35) Repeat steps 31 - 34 ...

40) In the gap above the 8/0 add one 11/0 and pass through the next 6/0 in the row.

41) In the gap above the (11/0, 15/0, 11/0), add three 15/0s and pass through the next 6/0 in the row.

45) Add four (or five) 15/0s and pass through the next 11/0 from the previous row.

42) Repeat steps 37 - 41 ...

46) Weave through beads to get to the next 11/0 from the previous row.

43) ... until you reach the end of the row.

Make the step-up: add the last group of three 15/0s, then pass through the next 6/0 in the row and then through the first 11/0 from this row.

44) Add four (or five, depending on how it fits) 15/0s and pass through the 8/0, just above the 3mm round.

47) Repeat steps 44 - 46, until you reach the end of the row.

Tie a few half-hitch knots and cut off all the remaining thread. The pendant is finished.

Using a cabochon instead of a rivoli

You can use a 20mm cabochon instead of a rivoli. The only change in the pattern is that in steps 25 – 26 you add a 3mm round instead of a 15/0 or 11/0 seed bead.
